

1 вариант

Вам предстоит прочитать вслух текст и ответить на три вопроса по его содержанию. Время на подготовку – 2 минуты (1,5 минуты – для чтения текста про себя и 0,5 минуты – для ознакомления с вопросами).

Obviously the best way to get to school depends on how far you live from school. Many students would prefer to walk to school, but they live too far away. The biggest problem in Bristol is the traffic, so if you go to school by bus, it's slower and more boring. For many students the quickest way to get to school is by bicycle. So if you go the school by bicycle, it's quicker and you enjoy the journey more. But many cyclists are worried about the dangers of cycling in heavy traffic. And of course, riding a bicycle is not very enjoyable when it rains and when it's cold!

1. Does the best way to get to school depend on how far you live from school?
2. What is the biggest problem in Bristol?
3. When is riding a bicycle not very enjoyable?

2 вариант

Вам предстоит прочитать вслух текст и ответить на три вопроса по его содержанию. Время на подготовку – 2 минуты (1,5 минуты – для чтения текста про себя и 0,5 минуты – для ознакомления с вопросами).

Scientists have developed a robot that can react emotionally to the way people treat him, relaxing when it feels kindness and showing fear at anger. Heart Robot has a beating heart, a breathing belly and sensors that react to movement, noise and touch. If you hug him he will melt in emotions. If you give him a violent shake or shout at him he will get upset. His eyes will become wide, his heart will beat quickly. Scientists designed Heart Robot to study how people react to a machine that shows feelings. The idea of robots having emotions or a personality is no longer just science fiction.

1. Who has developed a robot that can react emotionally to the way people treat him?
2. What does Heart Robot have?
3. What will happen if you hug Heart Robot?
